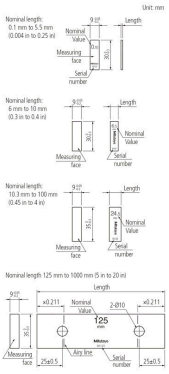
# Gauge Block, Metric, with JCSS Cert.

Item number: 613641-016

## Images



## Description

This Grade K Gauge Block with JCSS Certificate offers you the following benefits:

- Due to the ceramic material, these gauge blocks are highly wear-resistant and corrosion-resistant.
- CERA blocks feature ten times the abrasion resistance of steel gauge blocks and three times that of hard metal blocks.
- Steel and ceramic have similar expansion coefficients which reduce measurement errors that occur due to temperature change.
- Non-magnetic: Powders (such as iron grit) will not adhere to surfaces
- Clearly visible marking: Black characters on a snow-white surface
- More or less free from dimensional change over time
- Can adhere to steel gauge blocks
- Free from burrs caused by scratches

## Features

| | |
|---|---|
| **Inch-Metric:** | Metric |
| **Length [mm]:** | 1.5 |
| **Type of Certificate:** | JCSS certificate |
| **Delivered:** | In a foamed material with JCSS calibration certificate |
| **Accuracy:** | EN ISO 3650 |
| **Material:** | Ceramic |
