

AIRSPADE®

Introducing **AirSpade 5000 Utility Series** Air Excavation Tools!

Featuring the **NEW**, ergonomic **In-line Handle** designed for jobs where gripping the tool in a vertical position is preferred.

Also features the proprietary **AirSpade Supersonic Nozzle** for superior digging performance.

Safely uncover sensitive underground utilities without damage.

Ideal for Utility Work:

- Electric Power Lines
- Gas Pipes
- Telecommunication Lines
- Water and Sewer Lines
