

HEPA VACUUM SYSTEM

Made in USA

Atrix has been manufacturing vacuums since 1983.

The High Capacity HEPA 7 vacuum (HCVAC7H-ESD) comes standard with a 7-gallon, quick change, no mess, sealable, HEPA containment filter canister.

Each HCVAC7H comes complete with a HEPA filter, 10 foot crush proof stretch hose, 16 inch flexible wand, crevice tool, crevice tool brush, utility nozzle, power cord and freewheeling roller base.

FEATURES

- True 7-Gallon HEPA filter
- Convenient, freewheeling, detachable roller base
- Larger capacity, "NO MESS" filter
- Ideal for large volumes of dry chemical, asbestos, mold, lead paint dust, or other hazardous particulate.
- ESD safe accessories

TECHNICAL SPECIFICATIONS

110V Model, 50/60HZ, 628 watts.
