Emergency Opener

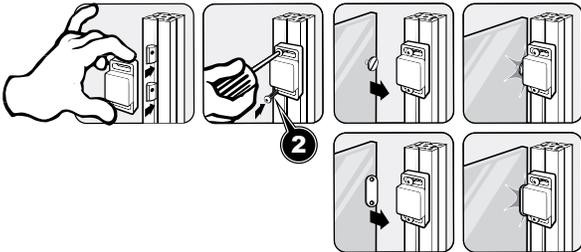

The Emergency Opener section contains seven diagrams. The first three show a hand sliding a black emergency opener onto a door handle. The next two show the internal mechanism of the opener with arrows indicating the direction of movement and the word 'CLICK'. The final diagram shows a hand turning a key on the handle, with a 'CLICK' label.

Ball Catch

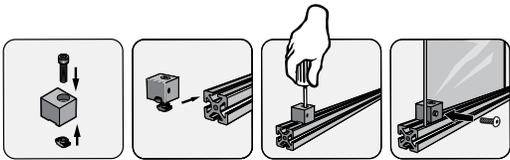

The Ball Catch section contains eight diagrams. The first shows a hand inserting a ball catch into a slot on a panel. The second shows a hand turning a screw to adjust the tension. The remaining six diagrams show the ball catch being pushed into the slot and secured with a screw, with checkmarks indicating successful installation.

Magnetic Catch

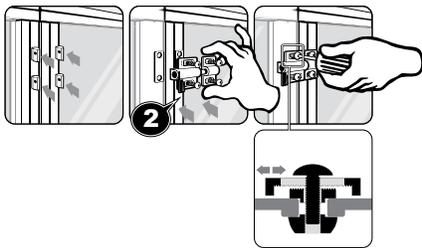

The Magnetic Catch section contains six diagrams. The first shows a hand inserting a magnetic catch into a slot. The second shows a hand using a screwdriver to adjust the catch. The remaining four diagrams show the catch being pushed into the slot and secured with a screw.

Panel Mount Block

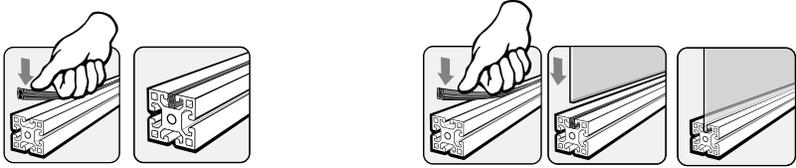

The Panel Mount Block section contains four diagrams. The first shows a hand inserting a block into a slot. The second shows a hand using a screwdriver to adjust the block. The remaining two diagrams show the block being pushed into the slot and secured with a screw.

Door Latch

The Door Latch section contains three diagrams. The first shows a hand inserting a latch into a slot. The second shows a hand turning a screw to adjust the latch. The third diagram shows a hand using a screwdriver to adjust the latch. Below these diagrams is a cross-sectional diagram of the latch mechanism.

Cover and Reduction Profile

The Cover and Reduction Profile section contains five diagrams. The first shows a hand sliding a cover onto a rail. The second shows a hand sliding a reduction profile onto a rail. The remaining three diagrams show the cover and reduction profile being pushed onto the rail.

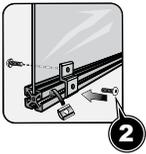

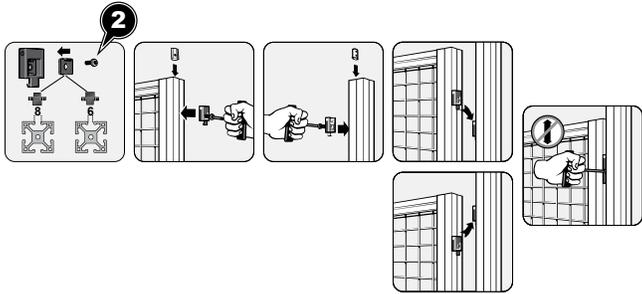

Sealing Profile

The Sealing Profile section contains two diagrams. The first shows a hand sliding a sealing profile onto a rail. The second shows a hand using a screwdriver to adjust the sealing profile.

FATH® T-Slotted Rail Accessories

Panel and Door Elements - Continued

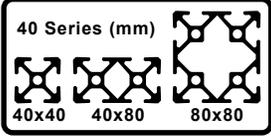

Panel and Door Elements Installation	
Bridge Handle and Cover Cap	 A sequence of five illustrations showing the installation of a bridge handle and cover cap. Step 1 shows the handle being inserted into the rail. Step 2 shows a screw being used to secure the handle. Step 3 shows the cover cap being placed over the handle. The final two steps show the handle fully installed and secured.
Comfort Handle and Cover Cap	 A sequence of five illustrations showing the installation of a comfort handle and cover cap. Step 1 shows the handle being inserted into the rail. Step 2 shows a screw being used to secure the handle. Step 3 shows the cover cap being placed over the handle. The final two steps show the handle fully installed and secured.
Cover and Reduction Profile	 A series of illustrations showing the installation of cover and reduction profiles. The first two images show a hand sliding a cover profile onto a rail. The next three images show a hand sliding a reduction profile onto a rail, with the final image showing the profile fully seated.
Magnetic Catch	 A series of illustrations showing the installation of a magnetic catch. Step 1 shows a hand holding a magnetic catch. Step 2 shows the catch being inserted into the rail. The following four images show the catch being secured to the rail and the door panel.
Hanger	 A series of illustrations showing the installation of a hanger. Step 1 shows a hand holding a hanger. Step 2 shows the hanger being inserted into the rail. The following images show the hanger being secured to the rail and the door panel.
Panel Holder	 A single illustration showing a hand installing a panel holder into the rail. A circled number '2' is next to the illustration.

Emergency Opener

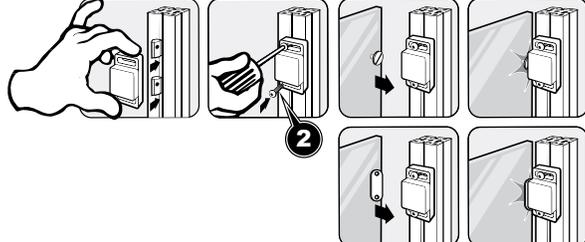

The Emergency Opener section contains seven diagrams. The first three show the opener being inserted into a door's edge. The next two show the opener being pushed into the door's internal track, with a 'CLICK' label and an upward arrow indicating the direction of force. The final diagram shows a hand turning the handle of the installed opener.

Ball Catch

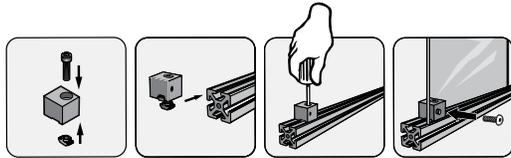

The Ball Catch section contains eight diagrams. The first shows a hand inserting a ball catch into a slot on a panel. The second shows a screw being used to secure the catch. A circled '2' is placed over the second diagram. The remaining six diagrams show the ball catch being pushed into the slot on the door, with checkmarks and arrows indicating the correct installation path.

Magnetic Catch

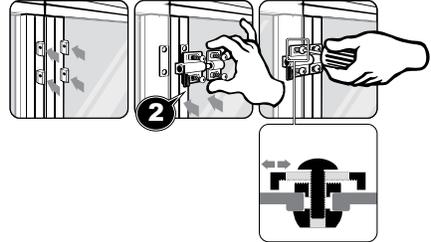

The Magnetic Catch section contains seven diagrams. The first shows a hand inserting a magnetic catch into a slot on a panel. The second shows a screw being used to secure the catch. A circled '2' is placed over the second diagram. The remaining five diagrams show the magnetic catch being pushed into the slot on the door, with arrows indicating the direction of force.

Panel Mount Block

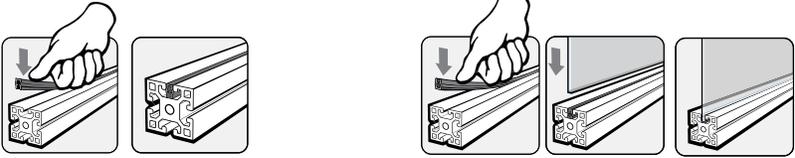

The Panel Mount Block section contains four diagrams. The first shows a block being inserted into a slot on a panel. The second shows a screw being used to secure the block. The third and fourth diagrams show the block being pushed into the slot on the door.

Door Latch

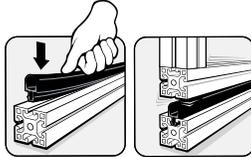

The Door Latch section contains four diagrams. The first shows a latch being inserted into a slot on a panel. The second shows a screw being used to secure the latch. A circled '2' is placed over the second diagram. The third diagram shows the latch being pushed into the slot on the door. The fourth diagram is a cross-sectional view of the latch mechanism.

Cover and Reduction Profile

The Cover and Reduction Profile section contains five diagrams. The first shows a hand inserting a cover profile into a slot on a panel. The second shows a hand inserting a reduction profile into a slot on a panel. The third, fourth, and fifth diagrams show the cover and reduction profiles being pushed into the slot on the door.

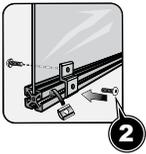

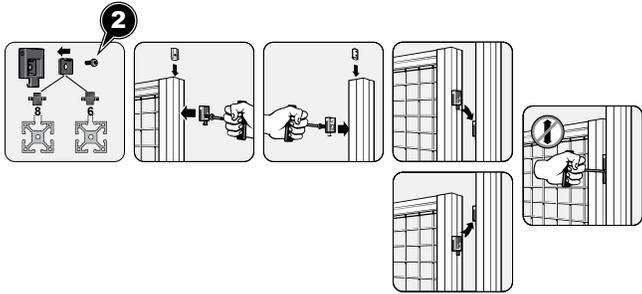

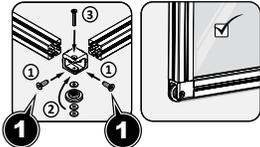

Sealing Profile

The Sealing Profile section contains two diagrams. The first shows a hand inserting a sealing profile into a slot on a panel. The second shows the sealing profile being pushed into the slot on the door.
