## Fleeting (single-shot) Relay Timers T2R-SST Series

### Overview

The T2R-SST series offers a single-shot timing function in a cost-effective design and compact size. Units in the T2R-SST series are an ideal choice for many industrial applications. They utilize a microprocessor-based design for reliable performance and maximum flexibility. A 10A SPDT relay output contacts can handle most pilot duty and fractional horsepower loads. All products are encapsulated for robust protection of internal components. This series is offered in a wide range of adjustable timing ranges.

### Features

- Cost effective design and compact 2 x 2 inch enclosure
- Encapsulated for protection
- 10A SPDT relay output contacts
- 24VAC/VDC and 120VAC/VDC models available

**T2R-SST-30-24AD**
