

350125C, Copper Shear Bolt WEJTAP™ Connector, Small Series

By Burndy
Catalog # [350125C](#)

CPI Copper Taps are designed for use as a permanent connection on copper wire or solid rod. CPI wedge connectors use high strength bronze alloy, pure copper and a unique shear head bolt for a mechanically strong, electrically conductive and easy to install connection.

Features

- Industry-proven spring wedge technology easily installed with common socket or impact wrench
- Installed overhead
- Meets or exceeds current carrying capacity of conductors being connected
- "Spring like" high strength C-Body ensures permanent connection with consistent pressure on the conductors
- Corrosion resistant highly conductive copper and bronze alloys with a pure copper insert between conductors increases conductivity and lower electrical resistance
- Corrosion inhibitor factory applied for ease of installation
- Remains permanently locked through fault current or power surges
- Easy to remove without damage to conductor

General

Catalog Number	350125C
Material	Copper
UPC	621945678149
