

723220T2, Tap Connector, 4-Hole

By Burndy
Catalog # [723220T2](#)

Conductor Range: 477 T2 ACSR (26/7 Str) (.858" x 1.716")

Features

- Easy to remove and re-use without damaging the conductor
- Available in NEMA standard 2- or 4-hole patterns
- Industry-proven wedge technology for quick and easy installation without the need for special tools
- Easily adaptable to standard hotstick tools
- High-conductivity grit corrosion inhibitor is factory applied for ease of installation and longevity while the connector is in service
- Meets or exceeds the current carrying capacity of the conductors being connected
- Remains permanently locked through fault current or power surges
- May be used in non-corrosive environments to connect copper conductors

- Excellent option for emergency restoration applications where outside crews might not have shoot-on or compression tooling
