

MASTSEAL 8, Self-Fusing EPR Tape with Butyl Mastic Adhesive, 2"x10'

By Burndy
Catalog # [MASTSEAL 8](#)

MASTSEAL 8 is the ultimate solution for electrical insulation and sealing challenges.

Features

- Strong Adhesion - excellent adherence to copper, aluminum, and various cable jackets, ensuring a tight and secure seal
- Waterproof Performance - offers continuous water resistance, protecting against moisture and various wet locations
- Temperature Stability - remains stable and functional at temperatures up to 90°C, with an overload tolerance of up to 130°C
- Environmental Resistance - withstands exposure to ozone, UV, and xenon, maintaining integrity and performance in diverse environments
- Versatility - easily conforms to irregular shapes and surfaces, providing a versatile solution for complex sealing needs
- Longevity - designed to resist extreme temperatures and environmental conditions, ensuring long-lasting protection and insulation

Specifications

Certified Listed	• ASTM D44325
	• ASTM 1000
	• ASTM D-4388

Dimensions

Weight	1 lb.
Width	2 in
Length	10 ft

General

Color	Black
UPC	621945720879

Logistics

Carton Quantity	20
