

PRO7 BROWN, Brown Tape, .75"x66'

By Burndy
Catalog # [PRO7 BROWN](#)

Pro Series 7 PVC Color Coded Tape is a versatile and robust PVC insulation tape designed to meet a variety of needs in both industrial and domestic settings.

Features

- Durable Material - made from high quality PVC offering excellent resistance to abrasion, chemical, and UV Light
- Color Stability - available in multiple colors that maintain their vibrancy and do not fade easily, ensuring a lasting aesthetic appeal
- Versatile Temperature Range - performs reliably across a wide range of temperatures and suitable for various environmental conditions
- Temperature Performance - maintains its integrity and performance even under high temperature making it suitable for demanding applications, 600V between -18°C to 105°C
- Superior Electrical Insulation - providing effective insulation, enhancing safety and efficiency in electrical applications
- High Tensile Strength and Elongation - ensuring durability and flexibility, allowing the tape to stretch without breaking
- Colors Available: Yellow, Red, Blue, White, Brown, Orange, Gray, Violet
