

Conventional Fire Alarms

Pull Station Covers

STI Series

The STI Series Pull Station Covers help to prevent false fire alarms without restricting legitimate alarms. They consist of a tamper-proof, clear Lexan polycarbonate shield and frame that fits easily over manual pull stations. Some models offer a piercing warning horn when cover is lifted.

Features and Specifications

- Fits virtually all pull stations
- Tested and approved by wide range of fire prevention and testing authorities
- Guards against physical damage to manual pull station
- Optional gasket for outdoor use is available
- Optional battery-powered horn (9-volt alkaline battery included)
