

DBF 4XLT Duct Booster Fan

4" duct booster fan, 5ft cord w/plug, wall panel, 120V, 1~

Item #: 40275

Variant: 120V 1~ 60Hz

DBF 4XLT is a duct booster fan designed for boosting air on in applications such as extended ductwork, crawlspace ventilation, and dryer exhaust. The product is equipped with 5 feet cord, indicator panel to indicate status of product operation and pressure-sensing switch that activates the fan once positive pressure is sensed in the duct line. The switch shuts the fan off when the pressure differential falls below the activation level.

- Suitable for 4" ductwork
- Metal leak-proof housing
- Pressure switch, indicator panel, 5 ft cord for 120V/1~
- Duct runs up to 130 linear feet

The DBF 4XLT features a galvanized metal housing, pressure-sensing switch, indicator panel and a 5 feet cord for 120V/1~ connection. Suitable for 4" ductwork.

Performance certified by HVI; Conforms to UL Standard 507.
