

## MATRIX 6", 2 in 1 Vent Hood

tandem, supply/exhaust hood, 6" duct

Item #: 413640

### Matrix 6", 2-in-1 Vent Hood

simplifies a Fresh Air Appliance installation. The hood requires only one outer wall penetration and provides an outside connection with the Fresh Air Appliance. The stale air is evacuated from the house and fresh air is drawn in simultaneously without any cross-contamination between the two airflows.

Suitable for 6" duct installations.
