Ceiling-mounted ERV, side port, 106 cfm

Item #: 463271

This product has been discontinued

This product was replaced by [FIT® 120E Fresh Air Appliance](#)

- Airflow up to 106 cfm @ 0.4" PS serves 1 to 3 bedroom homes
- Slim design, only 8.75" (222 mm) high
- No drain required
- Easy to install ceiling bracket included

Application

With a profile of only 8.75" high, the FIT® 120E is ideally suited for condos and apartments that have no mechanical room and where it must be located over a false ceiling.

How it works

The FIT® 120E brings a continuous supply of fresh air into a home while exhausting an equal amount of contaminated air. The energy recovery core at the center of the unit transfers heat and moisture from the incoming air to the outgoing air that was cooled and dried by the building's air conditioner.
