

## CKR 6" to 4" Duct Reducer

Circular duct reducer 6"-4", bulk pack, 5 pcs per carton

Item #: [498135](#)

- Used to increase or decrease pipe size
- Durable galvanized steel construction
- Can be crimped if needed

The reducer is made of galvanized steel. It features hemmed collar edges for enhanced strength and a secure fit. The reducer is used to transition from a 6 in. pipe to a 4 in. pipe in an HVAC system. Suitable for most HVAC applications. Comes in a pack of 5 pcs.
