

HL 42 Kitchen Hood Liner

42" stainless fascia hood liner, 2 hal bulbs 10" duct collar

Item #: [56046](#)

Designed to fit into custom range hood enclosures, the HL Series Kitchen Hood Liner is the perfect accessory to complete your kitchen exhaust air system.

Developed for Homeowners and Kitchen Designers

- Quiet and yet powerful performance when paired with Fantech remotely located fans
- Compatible with most hood designs (wood, metal, and masonry)
- Easily integrated with all elements of kitchen design
- Dimmable light switch to illuminate the cooking area
- Attractive stainless-steel fascia supported by a sturdy, galvanized steel housing
- Equipped with the speed controller for AC remote mount exhaust fans

Compatible AC & EC Exhaust Fan Models

Compatible with four remotely-located AC and EC exhaust fan product lines:

- FG Centrifugal Inline Fan / FG EC Centrifugal Inline Fan
- FKD Mixed Flow Fan / FKD EC Mixed Flow Fan
- RE External Roof/Wall Fan / REC External Roof/Wall Fan (Corded AC Fan)
- RVF External Centrifugal Fan / RVF EC External Centrifugal Fan

Design

Once surrounded by a hood, only the stainless-steel fascia and baffle filters are visible. Baffle filters are easily removed for cleaning. Metal knobs on the baffle filters match fan and light control knobs. Pairing with remotely located fans offers quiet and powerful residential kitchen exhaust.

Speed Control Switch (For EC Fans)

If you choose to use an EC fan (for improved energy efficiency) with the HL hood liner, don't forget to order an EC-10VHL Hood Liner Speed Control Switch.

Note: If using an AC fan, the speed control switch is already included within the HL Series Kitchen Hood Liner kit. No additional purchase necessary.

Whether simple or elaborate, the most effective kitchen exhaust hood systems begin with Fantech's HL Series Kitchen Hood Liners.
