

DBF 110 Duct Booster Fan

4" duct booster fan, 120V, 1~

Item #: 95900

Variant: 120V 1~ 60Hz

DBF 110 is a duct fan designed for boosting air on demand in applications such as extended ductwork, crawlspace ventilation, and dryer exhaust. The product is equipped with a pressure-sensing switch that activates the fan once positive pressure is sensed in the duct line. The switch shuts the fan off when the pressure differential falls below the activation level.

- Suitable for 4" ductwork
- Plastic leak-proof housing
- Pressure switch
- Duct runs up to 108 linear feet

The DBF 110 features a plastic leak-proof housing and a pressure-sensing switch. Suitable for 4" ductwork.

Performance certified by HVI; Conforms to UL Standard 507.
