Wallmount Extruded Aluminum Enclosures 1455ZT Series

Key Features:

- Designed to house electronics when shelf or wall mounting is required.
- Consists of an aluminum "U" shaped extrusion body and a flat, sliding aluminum bottom plate.
- Sliding plate is perfect for easy mounting of components.
- Aluminum mounting brackets are attached to each end. Mounting brackets are punched with 0.31" (7.9 mm) diameter keyholes for easy mounting of enclosures.
- Rugged body is constructed from extruded aluminum with a minimum thickness of 0.06" (1.5 mm).
- Available in either clear or black anodized finish with matching sliding plate and mounting flanges.
- Includes all assembly hardware. For replacement screws, order part number **1455MSFL100BK** (pack of 100).
- NOTE: Recommended screw torque is 5 lbf/in
