

Straight Section Lay-in Flat-Cover Type 1 no KOs, 10x10x120, Gray, Steel

CATALOG NUMBER

F1010T1120GVP

Lay-in Flat-Cover Type 1 Straight Sections are used for enclosing wire and cable in wireway runs. Sections are completely open on one side so wire and cable can be laid-in along run, which eliminates the action of pulling wires or cables that can result in insulation damage.

FEATURES

Lay-in Flat-Cover Type 1 Straight Sections are used for enclosing wire and cable in wireway runs

Sections are completely open on one side so wires and cables can be laid-in along run

Lay-in design eliminates the action of pulling wires or cables, which can result in insulation damage

Flat-cover design supports mounting flush with walls or ceilings

Covers feature keyhole screw slots which simplify cover installation and removal, and limit risk of losing securing screws

Sections available in lengths from 12 to 120 inches, with or without knockouts

4"x4" and 6"x6" Straight Sections re-designed with Snap Connect features for ease-of-installation; sections are backwards compatible if a legacy U-Connector is present
