

ProLine G2 Tamperproof M6 Insert Bit

CATALOG NUMBER

P2ATPSB

Designed for field-installation on a ProLine G2 enclosure to secure the side/rear cover(s), and reduce the risk of undesired entry into the enclosure. Commonly used on outdoor enclosures that may be susceptible to tampering, or simply to add a greater level of security and limit access to critical electronics.

FEATURES

Screws are angled under the head to sit flush with the countersunk holes on the G2 covers

The driver bit is a hex-shank bit (insert bit) designed for use in hand drivers or in power tools with a standard bit adaptor

PRODUCT ATTRIBUTES
