

ProLine G2 Sequestr Barrier Panel, 2200x600

CATALOG NUMBER

P2CBD226

Similar in design and function to the standard Barrier Panel, the ProLine G2 Sequestr Barrier Panel is used to join enclosures, while at the same time segregating higher voltage/amperage components in the ProLine G2 Sequestr enclosure from the adjacent controls enclosure. The ProLine G2 Sequestr Barrier Panel incorporates a cutout for passage of the mechanical interlocking components.

FEATURES

16 gauge steel construction

RAL 7035 textured light-gray polyester powder paint finish

Cutouts for passage of mechanical interlocking components present, interlock components sold separately

Barrier panel serves as a joining kit between enclosures, no additional joining components are required

All mounting hardware is furnished with the Barrier Panel
