

ProLine G2 Full Access Rack, 2000x800, Steel, Black

CATALOG NUMBER

P2RFASFH208

P2RFASFH208_FullAccessRack_m_sq.png

The Full Access Rack is a design adaptation of the standard Heavy-Duty Swing-Out Rack Frame solution, serving a similar function but now allowing the rack frame to swing out of the enclosure for full access to 19-in. rack equipment. Depth adjustability up to 190mm (~7.5 in.) has also been built into the solution to accommodate equipment that extends forward beyond the rack frame. Left justified is the only standard configuration, and the minimum frame width must be 800mm to allow the rack frame to fully swing out of the enclosure. A filler panel with handle is included standard to occupy the space adjacent to the rack frame. Left justified is the only standard configuration, and the minimum frame width must be 800mm to allow the rack frame to fully swing out of the enclosure. A filler panel with handle is included standard to occupy the space adjacent to the rack frame. The Full Access Rack has been rated to a load capacity of 300lb (136kg).

FEATURES

Rack Frame horizontal members are 10-gauge (3.0mm), while vertical members are 12-gauge (2.5 mm)

All mounting hardware included for installation into 800mm wide enclosures

Depth adjustability up to 190mm (~7.5 in.) has also been built into the solution to accommodate equipment that extends forward beyond the rack frame

Left justified is the only standard configuration, and the minimum frame width must be 800mm to allow the rack frame to fully swing out of the enclosure

Filler panel with handle is included standard to occupy the space adjacent to the rack frame.

Load capacity of 300lb (136kg).

PRODUCT ATTRIBUTES

Article Number: 36541

Load Rating: 300lb

Material: Mild Steel

Weight: 171lb

Color: Jet Black

Color Code: RAL 9005

Finish: Powder Coated

Thickness: 10ga
