

6 Gallon Steel Biohazard Waste Can, Foot-Operated Self-Closing, Red - 05910R

Product Images

Short Description

- Perfect for medical facilities and research laboratories
- Safe, temporary collection of biological waste
- Meets OSHA 29 CFR 1910.1030 for segregation of infectious waste
- Foot-operated, self-closing lid
- Approved by FM Approvals and TUV

Description

Justrite's Biohazard Waste Cans meet OSHA 29 CFR 1910.1030 for the segregation of infectious waste. Use them to store contaminated laundry as well as other regulated waste; however, not for the storage of sharps. Sturdy steel cans feature leakproof construction with foot-operated, self-closing lid. Simple, foot pedal operation opens the biohazard waste can cover automatically to safely dispose of hazardous waste. Upon release of the pedal, the cover closes quickly to reduce the risk of contamination. Optional biohazard bag [#05901](#) is held securely around the circumference of the can top.

For quiet environments, SoundGard™ models incorporate a muffling pad inside the lid to lessen disruptive closure noise. This reduces noise by approximately 200% over standard models. Optional label kit [#25880](#) complies with California Health and Safety Code 118280 requiring warning labels to be visible from all sides of the biohazard waste can. Kit includes three labels and instructions.

Specifications

Model No	05910R
UPC	697841052475
International Model No.	05910R
Pallet Quantity	36
FM Approval	Yes
TUV Approval	Yes
OSHA Compliance	Yes
Color	Red
Material Specifications	Steel
Dimensions, Exterior	15.875" H x 15.866" Outer Dia.
	303mm H x 403mm Outer Dia.
Capacity	6 gallon
Liter Capacity	23
Net Weight, lbs	8.3
Net Weight, kg	3.8
