

1 Gallon Polyethylene Safety Container for Corrosives/Acids, Stainless Steel Hardware, Oval, White - 12161

Product Images

Short Description

- Resists acids and caustics
- Allows quick pouring and easy filling
- Spring close cap

Description

Translucent high-density polyethylene resists acids and caustics. The 2- and 5-gallon (7.5- and 19-L) sizes have fixed position on handle, which allows lid to stay open for easy filling. Spring-close cap provides a tight seal. Flame arrester-free spout allows quick pouring of non-flammable corrosives. Oval containers have trigger handle for one-handed pouring and make the most of storage capacity.

Specifications

Model No	12161
UPC	697841005365
International Model No.	12161
Color	white
Material Specifications	Polyethylene
