

5 Gallon Polyethylene Safety Container for Corrosives/Acids, Wide-Mouth, White - 12765

Product Images

Short Description

- Resists acids and caustics
- Allows quick pouring and easy filling
- Spring close cap

Description

Translucent high-density polyethylene resists acids and caustics. The 2- and 5-gallon (7.5- and 19-L) sizes have fixed position on handle, which allows lid to stay open for easy filling. Spring-close cap provides a tight seal. Flame arrester-free spout allows quick pouring of non-flammable corrosives. Oval containers have trigger handle for one-handed pouring and make the most of storage capacity.

Specifications

Model No	12765
UPC	697841005501
International Model No.	12765
Pallet Quantity	24
Color	white
Material Specifications	Polyethylene
Dimensions, Exterior	20" H x 12" Outer Dia. 508mm H x 305mm Outer Dia.
Capacity	5 gallon
Liter Capacity	19
