

Filter, Carbon, for VaporTrap Solvent Waste Kits, Package of 5 - #12850

Product Images

Short Description

- Prevent harmful HPLC vapors from being released into the air

- Protect workers from inhaling dangerous fumes

Description

- Activated Carbon filter prevents volatile organic compound vapors from being released into the air

Designed to be used in conjunction with VaporTrap™ solvent waste systems, these carbon exhaust filters trap potentially harmful vapors emitted from solvents in HPLC applications, protecting workers from inhaling dangerous fumes.

Depending on application, filter life may vary. Optional filter replacement indicator makes it easy to see when filter is saturated and requires replacement.

Specifications

Model No	12850
UPC	697841181939
International Model No.	12850
Material Specifications	Charcoal Activated Carbon
Dimensions, Exterior	7" L x 1.9" Outer Dia. 178mm L x 48mm Outer Dia.
Cap Size	70mm
Net Weight, lbs	2.5
Net Weight, kg	1.1
