

2 Gallon, Polyethylene Safety Can for Liquid Disposal, Built-In Fill Gauge, Red - 14265

Product Images

Short Description

- Superior chemical resistance and leak protection
- Spring-loaded sealed cap automatically vents
- Stainless steel flame arrester
- Design resists accidental tip over
- Built-in polyethylene fill gauge indicator

Description

High-density polyethylene (HDPE) disposal cans provide superior chemical resistance and leak protection. Spring-loaded sealed cap, normally closed, automatically vents between 3 and 5 psi (0.2 and 0.35 bar). Stainless steel handle and hardware with latch-catch system hold the cap in the open position for easy filling and pouring. Large-mouth opening features a built-in stainless steel flame arrester to guard against outside ignition. A current-carrying, patented carbon insert embedded in the container allows for proper grounding. The broad-base design provides stability and resists accidental tip over.

Model 14265 with built-in polyethylene fill gauge indicator pops up to warn you that the container is almost full.

Specifications

Model No	14265
UPC	697841142688
International Model No.	14265
Color	Red
Material Specifications	Polyethylene
Dimensions, Exterior	14.75" H x 12" Outer Dia. 375mm H x 305mm Outer Dia.
Capacity	2 gallon
Liter Capacity	8
Fill/Pour Hole inch	1.45
Fill/Pour Hole mm	37
Net Weight, lbs	7.1
Net Weight, kg	3.2
