

6' x 5' Free Standing Workspace Cough and Sneeze Guard, PVC in Aluminum Frame - 15610

Product Images

Short Description

Key Benefits

- Free standing and easily moveable to divide workstations to physically separate
- Large size to provide optimal coverage in work areas
- Acts as a barrier against germs and pathogens
- Clear PVC design allows for interaction while still physically separating

Description

When social distancing cannot be maintained but operations need to continue, workplace cough and sneeze guards provide needed protection in office environments, manufacturing facilities, hotels, restaurants, retail businesses, public buildings, schools and more. This personal workspace cough and sneeze guards is designed to maintain workplace efficiency—easily move as needed to provide a barrier at work areas.

The free-standing workspace barrier minimizes the need to change or spread out workstations and allows you interact with others while still physically separating. Constructed of an extruded aluminum frame with flexible, clear PVC panels, these durable yet lightweight personal workspace guards offer protection from sprays, splashes and direct respiratory droplets to help limit exposure to contaminants. Easy to assemble with included zip ties and a user supplied mallet. The dividers are easy to clean between shifts with soap and water or disinfectant solution (ammonia-based cleaning products not recommended).

Custom sizes are available upon request.

Specifications

Model No	15610
Special Price Type	Sale
UPC	697841271050
Color	Clear
Material Specifications	Aluminum Frame, Flexible PVC
Chemical Resistance	Impervious to Water, resists most Acids, resists most Solvents, resists dust, resists grease
Net Dimensions (W x D x H)	60" W x 1" D x 72" H
	1524mm W x 25.4mm D x 1828.8mm H
Includes	Aluminum frames, PVC barrier, plastic connectors
