

7' x 2' Rectangular Breakroom Workspace Cough and Sneeze Guard, PVC in Aluminum Frame - 15613

Product Images

Short Description

Key Benefits

- Easily moveable to divide workstations into 3 separate section
- Large size to provide optimal coverage in work areas
- Acts as a barrier against germs and pathogens
- Clear PVC design allows for interaction while still physically separating

Description

When social distancing cannot be maintained but operations need to continue, workplace cough and sneeze guards provide needed protection in office environments, manufacturing facilities, hotels, restaurants, retail businesses, public buildings, schools and more. The breakroom workspace barrier is ideal for long tables where multiple people can sit and still be socially distant. This personal workspace cough and sneeze guards is designed to maintain workplace efficiency—easily move as needed to provide a barrier at work areas.

The breakroom workspace barrier, made with a clear PVC divider, eliminates the need to change or spread out workstations and lets you interact with others while still physically separating. These barriers separate a table into 3 separate section to allow for socially distant space between co-workers. Constructed of an extruded aluminum frame with flexible PVC panels, these durable yet lightweight personal workspace guards offer protection from sprays, splashes and direct respiratory droplets to help limit exposure to contaminants. Easy to assemble with included zip ties and a user supplied mallet. The dividers are easy to clean between shifts with soap and water or disinfectant solution (ammonia-based cleaning products not recommended).

Custom sizes are available upon request.

Specifications

Model No	15613
Special Price Type	Sale
UPC	697841271098
Color	Clear
Material Specifications	Aluminum Frame, Flexible PVC
Chemical Resistance	Impervious to Water, resists most Acids, resists most Solvents, resists dust, resists grease
Net Dimensions (W x D x H)	29" W x 26" D x 85" H
	736.6mm W x 660.4mm D x 2159mm H
Includes	Aluminum frames, PVC barrier, plastic connectors
