Product Images

Short Description

- Ideal solution for safely securing LPG cylinders
- 100% welded aluminum
- Will not rust, corrode or discolor
- Multiple styles available

Description

Cylinder Lockers from Justrite offer superior features that make them extremely durable and easy-to-use. Constructed of 100% welded aluminum, they will not rust, corrode or discolor. Justrite's expanded .065"

(1.65mm) thick metal panels are the strongest in the industry – offering additional resistance to tampering. Welded security lug on front panel door accepts a padlock (not included) for extra protection. Heavier gauge aluminum mesh and extruded (not bent) frame add rigidity. All models have an exclusive solid aluminum roof panel that slants toward the back to shed water and ice. Eleven modular styles provide an efficient, attractive solution to expand multi-cabinet storage.

Lockers meet NFPA 58 for LPG storage and OSHA 1910.110 regulations. LPG vertical lockers also comply with Canadian Standards Association CSA-B149-2.

Specifications

Model No	23008
UPC	697841076433
International Model No.	230081
Pallet Quantity	1
Material Specifications	Aluminum
OSHA Compliance	Yes
Complies with NFPA Code 30	Yes
Storage Type	Vertical and Horizontal
Cylinder Capacity	Combo
Number of Doors	1
Door Type	Manual
