Product Images

Short Description

- Turn ordinary drums into fire-safe hazardous waste collection centers
- Control vapors to comply with EPA/NESAM requirements
- Gasketed, manual latching lid seals drum
- Durable steel construction with powder-coat finish
- Excellent chemical resistance

Description

Model No 26752 complies with NESAM (National Emissions Standard for Aerospace Manufacturing) by offering a gasketed, manual latching lid to seal the drum, thereby preventing vapor release. A vent is installed which relieves pressure buildup between 3 and 5 psig (0.2 and 0.35 bar) at elevated temperatures. Durable steel construction with powder-coat finish provides excellent chemical resistance. Ideal for the aircraft, furniture, and printing industries or anywhere solvent-soaked cloths are used. Design accepts optional padlock for security.
