- Made of flame-retardant polyethylene
- Ideal for decks, patios and poolside areas
- ADA compliant
- Innovative self-extinguishing design

## Description

---

Keep unsightly cigarette butts out of sight with the Personal Smoker's Ceasefire<sup>®</sup> Outdoor Ashtray in Forest Green (model 26806G). At 30 in (762 mm) in height with an 11 in (279 mm) base diameter, this ashtray is ADA compliant and fits nicely into snug spaces and light traffic areas for smokers.

The ashtray's large head welcomes cigarette litter while it prevents unwanted waste and rain from entering. It also dissipates heat from butts. The internal double-drip design stops tar condensation from appearing on the outside of the ashtray, especially useful in areas with high humidity, and its long neck minimizes chance of clogging.

Its self-extinguishing design is the same as its larger counterpart, reducing the risk of fire and holding up to 1

gal (4 l) of butts. Model 26806G is made with flame-retardant polyethylene, fire tested and FM approved, with a galvanized steel pail to collect butts and keep them out of the public eye.

Simply unscrew the lid from the base to open for maintenance, no tools are required. Optional accessories include handy disposable bucket liners made of aluminum/poly (model 26827), which can be easily twist-tied and thrown away once full.

An Anchoring Cable Kit with Padlock (model 268505) is also available, to provide extra security for your outdoor ashtray. Simply attach the 36 in (914 mm) wire rope around a railing or fence, then attach the cable end and padlock to a tie-down notch at the base.

This compact outdoor ashtray is excellent for poolsides, decks and patios, or any area you may want to keep clear of cigarette butts.
