Product Images

Short Description

- Fire tested and FM Approved
- Galvanized steel pail
- Made of flame-retardant polyethylene

- Ideal for decks, patios and poolside areas
- ADA compliant
- Innovative self-extinguishing design

Description

The contemporary Personal Smoker's Ceasefire® Outdoor Ashtray in Terra Cotta (model 26806T) makes a great addition to your garden and outdoor areas, perfect for keeping cigarette litter out of sight for your guests. At just 30 in (762 mm) in height and 11 in (279 mm) in base diameter, this ADA-compliant ashtray fits nicely into snug spaces and light traffic areas for smokers.

With the same innovative self-extinguishing design as its larger counterpart, it can easily reduce the risk of fire and hold up to 1 gal (4 l) of cigarette butts away from the sight of your guests. It is made with a flame-retardant polyethylene, meaning it won't rust, dent, or crack while it collects butts into its galvanized steel pail. This ashtray is fire tested and FM approved.

The interior features a double-drip design that keeps tar condensation from appearing on the exterior. This helps with maintenance, especially in areas with high humidity. Its long neck minimizes clogging, and the large head keeps rain out. It also discourages other waste, and dissipates heat from butts, reducing the risk of fire.

Simply unscrew the lid from the base to open for maintenance, no tools are required. Optional extras include handy disposable bucket liners made of aluminum/poly (model 26827), which can be easily twist-tied and thrown away once full.

An Anchoring Cable Kit with Padlock (model 268505) is also available, to provide extra security for your outdoor ashtray. Simply attach the 36 in (914 mm) wire rope around a railing or fence, then attach the cable end and padlock to a tie-down notch at the base.

Feel at ease knowing cigarette litter is hidden away in this stylish personal ashtray. With minimal maintenance and a fantastic design, it's perfect for your garden, pool or outdoor area.
