

5 Gallon Portable Steel Mixing Tank, Removable Cover with Flame Arrester, Self- Close Spout, Red - 27705

Product Images

Short Description

- Ideal for mixing operations
- Fully removable cover
- Minimizes risk of spill or fire when mixing flammable liquids
- Meets EPA 40 CFR 63.803(g) Work Practice Standard Storage Requirements

Description

Mixing tank minimizes the risk of spills or fire when mixing hazardous, flammable liquids. Lid is fully removable and clamps securely shut. Gasket seals tightly to prevent flammable vapors from escaping. Lid can

be padlocked for added security. Self-closing lid automatically ventilates the interior, and an internal flame arrester protects the contents from ignition sources. Safety bonding tab can be used to reduce static electricity buildup. Swinging bail handle makes tank easy to carry. Rugged 24-gauge steel construction with tough powder-coat finish provide maximum durability and chemical resistance.

Meets EPA 40 CFR 63.803(g) Work Practice Standard Storage Requirements. Also meets EPA requirements by limiting VHAP (volatile hazardous air pollutants) emissions.

Not recommended for transport.

Specifications

Model No	27705
UPC	697841045279
International Model No.	27705
Pallet Quantity	40
EPA Compliance	Yes
Color	Red
Material Specifications	Steel
Dimensions, Exterior	16" H x 15" Outer Dia. 406mm H x 381mm Outer Dia.
Capacity	5 gallon
Liter Capacity	19
Opening Diameter - inches	10.9375
Opening Diameter - mm	278
Net Weight, lbs	8.0
Net Weight, kg	3.6
