## Description

---

Justrite's Steel Laboratory Safety Cans have all the benefits of the Type I cans. Added features make these the choice of lab professionals for safely dispensing hazardous liquids into test tubes, small flasks and beakers. Fill spouts have self-close, pressure-relief caps and stainless steel flame arresters. These cans also feature a vacuum-relief valve within the lid for smooth liquid flow, and self-closing faucets for trouble-free dispensing. Cans with the smaller No. 08540 faucet offer easier dispensing in lab environments, while the No. 08902 faucet is better suited for heavy, industrial use.

**Shelf Cans** have a No. 08902 faucet mounted 2 inches above the bottom to eliminate lifting the cans during dispensing.

FM Approved
