Product Images

Short Description

- Ideal for laboratory settings
- Self-close, pressure relief caps
- Vacuum-relief valve within the lid
- Faucet mounted on top
- Can rests in sturdy metal cradle
- FM Approved; UL Listed

Description

Justrite's Steel Laboratory Safety Cans have all the benefits of the Type I cans. Added features make these the choice of lab professionals for safely dispensing hazardous liquids into test tubes, small flasks, and beakers. Fill spouts have self-close, pressure-relief caps and stainless steel flame arresters. These cans also feature a vacuum-relief valve within the lid for smooth liquid flow and self-closing faucets for trouble-free dispensing. Cans with the smaller No. 08540 faucet offer easier dispensing in lab environments, while the No. 08902 faucet is better suited for heavy, industrial use.

Tilt Cans have a 08902 faucet on top and the can rests in a sturdy metal cradle. The cradle base measures 13-13/16" x 14" (351mm x 356mm).

FM Approved; UL Listed

Specifications

Model No	7150156
UPC	697841140288
International Model No.	7150156
FM Approval	Yes
UL Approval	Yes
OSHA Compliance	Yes
Complies with NFPA Code 30	Yes
