Product Images

Short Description

- Store drum and safety cans in a single cabinet
- Feature self-latching, three-point locking door for maximum fire protection
- Sturdy steel construction offers excellent durability
- Complies with OSHA regulations

Description

For storage of larger quantities of flammable solvents, the heavy-duty Drum Safety Cabinet is available in many styles and sizes. Built to the same high standards as the smaller Classic Safety Cabinets, a reinforced liquid-tight sump contains spills. An array of drum accessories and equipment is available to ensure safety and convenience when storing and handling drums of hazardous materials.

Double-duty yellow cabinets safely store flammable liquids. They feature two separate compartments that fit one vertical 55- or 30-gallon (200- or 110-L) drum and up to twelve 5-gallon (19-L) safety cans. Cabinets feature self-latching, three-point locking door for maximum protection under fire conditions. Latching system engages automatically when the door is pushed closed.

Cabinets include drum rollers in the sump and one half-depth shelf in the drum compartment plus two full-size adjustable shelves in the can compartment. Sturdy 18-gauge (1-mm) double-wall steel construction offers excellent durability. Self-close model features a fusible link that holds doors wide open during use and melts at 165°F (74°C), allowing the doors to close automatically in the event of a fire.

Interior Dimensions:

Drum Side - 30.625"W x 60.5"H x 30.34"D

Can Side - 23.25"W x 60.5"H x 30.34"D
