EZ Series Vertical Conduit Seal-off with Preinstalled Dam Solution

Features

- Symmetrical and uniform design allows for a quicker installation due to immediate connection to the conduit – no more lining up pouring spouts
- Minimal turn radius offering optimized spacing for both enclosures and conduit
- 360° unimpeded access to potting chamber allowing simplified compound pouring
- Pre-installed disc brush damming technology to drastically reduce packing fiber and installation time
- Retrofittable in case the need to rerun wires occur
- Certified to both fast curing two-part epoxy resin, CELOX, and the traditional SC sealing compound
- Type 3R rated for outdoor applications

Application

Class I, Divisions 1 and 2: The purpose of seals in a Class I hazardous location is to minimize the passage of gases and vapors and prevent the passage of flames from one electrical installation to another through the conduit system
