

## Replacement ball for Rockwell test, 3,175mm, steel

Item number: 19BAA083

### Images

### Description

#### Mitutoyo indenters for Rockwell hardness test

As the interface between machine and material, the indenter must be of immaculate quality.

Therefore **Mitutoyo** only uses diamond indenters from the most experienced suppliers.

The indenters are calibrated in the highest standard calibration laboratories in the **DAkks** accreditation body, accredited according to **ISO 17025** and traceable to the **PTB**.

Constant development at our calibration partners secures an unmatched quality level.

Rockwell diamond indenter feature **DAkks** calibration certificates according to **DIN EN ISO 6508-2** and/or **ASTM E18**.

A function test, verifying the applicability of the indenter in regard of various indentation depth levels under different test forces, is optionally available.

Ball holders are made by **Mitutoyo**, and are supplied without calibration certificate for the included ball.

Please order a calibrated ball separately.

Function tests for ball holders are available on request.

**Please contact us if you do not find what you are looking for.**

### Features

<b>Description:</b>	Replacement balls for Rockwell ball indenter 3,175mm 1/8" steel balls. Calibration certificate not included. 10pcs.
<b>Method:</b>	Rockwell
<b>Type:</b>	Replacement ball
<b>Material:</b>	steel
<b>Ball Diameter mm:</b>	3.175
<b>Ball Diameter Inch:</b>	1/8"
<b>Calibration:</b>	without
