

## Step Master

Item number: 516-199

### Images

### Description

The Step Master is a gauge that provides you with four small increments in height and offers you the following benefits:

- It is constructed from an assembly of five highly accurate, steel or ceramic gauge blocks.
- Each adjacent step is calibrated to a resolution of 0.01  $\mu\text{m}$  by using an interferometer with an accuracy tolerance of  $\pm 0.2 \mu\text{m}$ .

### Features

<b>Inch-Metric:</b>	Metric
<b>Block step:</b>	300, 100, 50, 20 $\mu\text{m}$
<b>Material:</b>	Steel
<b>Delivered:</b>	In a wooden case with certificate of inspection
<b>Mass:</b>	0.15 kg
