

Knife Edge Straight Edge

Item number: 528-104

Images

Description

A Mitutoyo tool designed to test straightness by holding against a backlighted surface. The degree of straightness of the tested surface is qualitatively indicated by the amount of light that can be seen under the straight edge reference edge, which is hardened, ground and micro-lapped.

Features

Cross section:	25 x 6 mm
Section:	60°
Accuracy:	DIN 874-2
Length:	200 mm
Delivered:	In a box
Mass:	190 g
