Description

This Grade 2 Gauge Block with Inspection Certificate offers you the following benefits:

- Outstanding dimensional stability: Mitutoyo steel gauge blocks are made exclusively from artificially aged material.
- High gauge reliability: The gauge blocks can be used as a standard for a long time due to their high dimensional stability.
- The maximum permitted length changes to gauge blocks over a year are defined in EN ISO 3650. Mitutoyo high-quality gauge blocks easily meet these and all other requirements.
- Steel gauge blocks are excellent for use as a standard because of the low measurement uncertainty that can be achieved when using them.
- Mitutoyo steel gauge blocks have top-quality surfaces, guaranteeing high wringing force.

Features

Inch-Metric:	Metric
Length [mm]:	2.2
Type of Certificate:	Inspection certificate
Delivered:	In a foamed material with inspection certificate
Accuracy:	EN ISO 3650
Grade:	2
Material:	Steel
