

# Gauge Block, Inch, Inspection Cert.

Item number: 613303-121

## Images

## Description

This Grade 0 Gauge Block with Inspection Certificate offers you the following benefits:

- Due to the ceramic material, these gauge blocks are highly wear-resistant and corrosion-resistant.
- CERA blocks feature ten times the abrasion resistance of steel gauge blocks and three times that of hard metal blocks.
- Steel and ceramic have similar expansion coefficients which reduce measurement errors that occur due to temperature change.
- Non-magnetic: Powders (such as iron grit) will not adhere to surfaces
- Clearly visible marking: Black characters on a snow-white surface
- More or less free from dimensional change over time
- Can adhere to steel gauge blocks
- Free from burrs caused by scratches

## Features

|                             |  |
|-----------------------------|--|
| <b>Inch-Metric:</b>         | Inch   |
| <b>Type of Certificate:</b> | Inspection certificate                           |
| <b>Length:</b>              | 0.063 inch                                       |
| <b>Delivered:</b>           | In a foamed material with inspection certificate |
| <b>Accuracy:</b>            | BS 4311-1  |
