

## Gauge Block, Metric, with JCSS Cert.

Item number: 613590-016

### Images

### Description

This Grade K Gauge Block with JCSS Certificate offers you the following benefits:

- Due to the ceramic material, these gauge blocks are highly wear-resistant and corrosion-resistant.
- CERA blocks feature ten times the abrasion resistance of steel gauge blocks and three times that of hard metal blocks.
- Steel and ceramic have similar expansion coefficients which reduce measurement errors that occur due to temperature change.
- Non-magnetic: Powders (such as iron grit) will not adhere to surfaces
- Clearly visible marking: Black characters on a snow-white surface
- More or less free from dimensional change over time
- Can adhere to steel gauge blocks
- Free from burrs caused by scratches

### Features

Inch-Metric:      Metric

Length [mm]: 1.3  
Type of Certificate: JCSS certificate  
Delivered: In a foamed material with JCSS calibration certificate  
Accuracy: EN ISO 3650  
Material: Ceramic
