

Gauge Block, Metric, with JCSS Cert.

Item number: 613634-016

Images

Description

This Grade K Gauge Block with JCSS Certificate offers you the following benefits:

- Due to the ceramic material, these gauge blocks are highly wear-resistant and corrosion-resistant.
- CERA blocks feature ten times the abrasion resistance of steel gauge blocks and three times that of hard metal blocks.
- Steel and ceramic have similar expansion coefficients which reduce measurement errors that occur due to temperature change.
- Non-magnetic: Powders (such as iron grit) will not adhere to surfaces
- Clearly visible marking: Black characters on a snow-white surface
- More or less free from dimensional change over time
- Can adhere to steel gauge blocks
- Free from burrs caused by scratches

Features

| | |
|-----------------------------|--|
| Inch-Metric: | Metric |
| Length [mm]: | 24 |
| Type of Certificate: | JCSS certificate |
| Delivered: | In a foamed material with JCSS calibration certificate |
| Accuracy: | EN ISO 3650 |
| Material: | Ceramic |
