

Digital Precision Level

Item number: 950-317

Images

Description

A digital Mitutoyo protractor/level designed for making angle measurements in the vertical plane. The instrument can be zeroed at any angular position and directly indicates the angle between the stock and that position when in use to a resolution of 0.1 degree. When zeroed at the horizontal, readings are provided in the same manner as a spirit level, but with the advantage of a range extending all the way to the vertical.

Features

Range:	360° (4 x 90°)
Max. permissible error (degrees):	Horizontal : 0.1 Vertical : 0.2
Repeatability (degrees):	0.1
Power supply:	Standard battery (9 V) 6LR61
Data output:	No
Battery life:	Approx. 500 hours
Sensitivity (degrees):	0.1
Delivered:	Including box
Mass:	0.3 kg

Accessories

Optional accessories:

RS-232C Output Cable

for series 950
Art No. 50AAA983A
Suggested retail price: 650.00 €*
