Product Images

Short Description

- Helps prevent patient to patient and healthcare worker to patient cross contamination and infection
- Remove and contain dirt and dust from foot traffic and equipment wheels
- Traps and keeps out impurities, dust, and particulates
- Adhesive surface grabs and holds soil matter with no transfer
- Peel away sheets for fresh, clean surface
- Anti-Microbial
- Low profile numbered tabs

Description

Clean-Step™ tacky mats traps and keeps out impurities, dust and particles. Numbered tabs ensure one sheet at a time removal and indicate number of remaining layers. The sticky mat is not damaged by footwear or wheels, does not slip, is noncontaminating. Blue and grey are B level tack whereas white is A level, high level of tack.
