

Durable Entrance Mat Master Trax[®] 371

Product Images

Short Description

- Oversized product for medium traffic entrances and foyers where one piece of matting is required versus multiple individual mats
- 37 ounces of needle punch yarn per square yard of berber needle-punch
- Heat-sealed edges, vinyl borders and squared edges available
- Rubber backing is textured to help minimize mat movement
- UV stable, stain resistant, durable and highly resilient, tightly woven carpet

Description

Master Trax® Lite is an entrance mat designed specifically for oversized entrances and foyers where one piece of matting is required versus multiple individual mats. With 37 ounces of needle-punch yarn per square

yard, Master Trax® Lite can withstand medium to high traffic areas such as entrances to stores/shopping malls, hospitals, schools, and office buildings. The berber style top surface comes in a variety of colors to match any decor and beveled edge borders are available for a more gradual transition. A heavy-duty rubber backing with a textured underside helps minimize mat movement.
