Kure-A-Stat™

“Fan Controller” “Eliminates Energy Waste”

Average Energy Savings of:

A/C **14.8%** Heat **11.9%**

- A smart micro post-purge fan off delay timer
- Unlike other pre-set post-purge timers, the Kure-A-Stat™ actually measures the run time of the compressor and/or heating system
- Calculates the best fan off delay time to purge ducts of residual air
- Easily installs on commercial or residential applications
- Works on all 24V systems that have a common wire, including heat pumps
- Made in the USA
- 5 year warranty
