

819117

## Combination Adjusting and Release Tool for Present Click-Type Torque Wrench

### PRODUCT DETAILS

- Use with SR interchangeable heads as well as setting torque values on our preset torque wrenches
- The tool consists of a grip that controls a small hex key with a larger hex key surrounding the point of the smaller ones
- The smaller hex key fits the torque adjustment nut and the larger key fits the lock nut that holds the torque adjustment nut in place
- The two keys make it easy to unlock and adjust the torque adjustment nut
- All LTC, LTCS, LTCR, SLTC, SLTCS, SLTCR, SLTC-FM, SLTCS-FM, and SLTCR-FM preset torque wrenches may be adjusted with the CART
- PLEASE NOTE: See below for manuals & details drawings; click the drop down menu, click on specific product PDF, click the download button
