## Standard Tooling Adapter Interchangeable Head, 2

### PRODUCT DETAILS

- When the application requires a special head configuration the STA-Series adapters permit fabrication of a custom head specifically meeting the requirements of the application.
- Each head has the female dovetail connector required to fit SR interchangeable head torque wrenches
- These adapters should never be used with the Quick Change dovetail

- Sturtevant Richmond interchangeable heads have two common centerlines. Typically for sizes 32 mm and below the common centerline is 36.5 mm. Sizes larger than 33 mm the common centerline extends to 98.4 mm.
- PLEASE NOTE: See below for manuals & details drawings; click the drop down menu, click on specific product PDF, click the download button
